

DOCKET NUMBER: YOR920010520US1

1 service agent exits the apparatus through the client port as
2 taught by Sawada in the claimed invention of Valencia in
3 order to make remotely control home network devices
4 available using wide-area network such as the Internet (See
5 col. 1, lines 30-34).

6 In response, applicants respectfully state claim 35 is a
7 dependent claim that depends on an allowable claim, and is
8 therefore allowable. Furthermore, the cited reference to Sawada
9 (col. 2, ln. 27-52) fails to teach, we contend, the use of
10 service agents with which the browser server interacts to adjust
11 the behavior the service controlled by the service agent.

12 A listing of the claims is provided as required in the new USPTO
13 amendment practice per 37 CFR 1.121.

14 It is anticipated that this amendment brings the application to
15 allowance of all the claims. Favorable action is respectfully
16 solicited. In the unlikely event that any claim remains
17 rejected, please contact the undersigned by phone in order to
18 discuss the application.

19 Please charge any fee necessary to enter this paper to deposit
20 account 09-0468.

21 Respectfully submitted,

22 By:
